Change Number M-20-90-3	FEDERAL FACILITY AGREEMENT AND CONSENT ORDER CHANGE CONTROL FORM Do not use blue ink. Type, or print using black ink.	Date November 1, 1990
Originator B. M. Barnes	Phone 509-376-3640	
Class of Change <input type="checkbox"/> I - Signatories (Section 13.0) <input checked="" type="checkbox"/> II - Project Manager <input type="checkbox"/> III - Unit Manager		
Change Title 4843 Alkali Metal Storage Facility Closure		
Description/Justification of Change Reword the Tri-Party Agreement Milestone M-20-14 (completion of Part B permit application) to read "Submit 4843 Alkali Metal Storage Facility Closure Plan to Ecology and EPA" and establish a submittal date of June 30, 1991. Since it has been determined that qualified offsite disposal capability for dangerous alkali metal is available and all mixed alkali metal waste can be stored at the Hanford Central Waste Complex until an appropriate disposal facility is found and approved, the Department of Energy - Richland Operations has decided to close the 4843 AMSF. The changes mentioned above are requested as a result of that decision.		
Impact of Change No significant impact. These changes will reflect the outcome of TPA Milestone M-20-14, Part B permit application.		
		
Affected Documents Hanford Federal Facility Agreement and Consent Order Action Plan-Appendix D, Table D-3 (page D-16) and Figure D-1 (page D-34).		
Approvals ____ Approved ____ Disapproved DOE _____ Date _____ EPA _____ Date _____ Ecology _____ Date _____		Note: 4843 AMSF Closure start dates to be determined in Closure Plan.
